BLAZER / COAT MEASUREMENTS

BLAZER LENGTH

Measure from base of neck to the desired length (the standard length is to the bottom of the waist or knuckles of index fingers). (-25" - 36")

Your Measurement

SHOULDERS

Measure the width of the back across the broadest part of shoulders, from shoulder point (where the shoulder meets the arm) to about 1-2 inches below the neckline. (-17" - 25")

Your Measurement

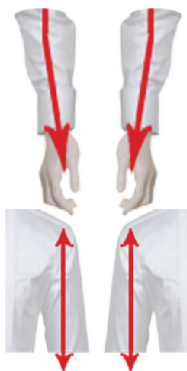

SLEEVE

Measure from the right shoulder point (where the shoulder meets the arm) down the arm to the top of the "V" made by the thumb and index finger. We will adjust accordingly.

(-22" - 27")

Your Measurement

SLEEVE

SEAT

Measure around the broadest point on your hips/seat (usually right on the hip bone). (-36 - 48")

Your Measurement

MIDSECTION/WAIST

Measure around your true waist, the widest part of your stomach. This will typically be at the level of your belly button. (-32" - 49")

Your Measurement

BICEP

Measure the circumference of your bicep (without flexing). (-12" - 18")

Your Measurement

FRONT

Measure across the chest from base of armpit to armpit, with your arms by your side. (-15" - 21")

Your Measurement

BACK

Measure across the broadest part of your back (across shoulder blades) from base of armpit to armpit. (-15" - 21")

Your Measurement

CHEST

Measure fully around the broadest part of your chest (tape should rest over the nipples). (-36" - 46")

Your Measurement

VEST

Measure from the shoulder seam at the base of your neck, down the front of your chest, to the bottom of your belt. (-24" - 30")

Your Measurement

COAT LENGTH

Measure from base of neck to the desired length if full length coat will come to just below your knee caps. (-40" - 60")

Your Measurement
